Please write us for prices on any other varieties and quantities you may wish.

DEAR CUSTOMER:

The Rose field view shown herewith is one of our 1942 fields located across the highway from our field headquarters. With more than 400,000 plants such as these to choose from, you may see why we are able to select strong, well-developed plants for our regular home gardener customers.

Although production costs are mounting, and the difficulty of obtaining packing materials and transportation facilities are increasing daily, please note that we have not raised our prices over those quoted a year ago.

Roses have been our specialty for many, many years. We pride ourselves that we grow good plants and handle them carefully. The packing and shipping of each order is supervised by one of our firm members.

A complete list of our varieties is given on the back of this folder, but for your convenience, we have listed in print on the included order blank the more popular and practical varieties. Check any of these you choose and write in any others you may select from the general list.

YOUR DELIVERY COSTS

For the sake of tire conservation we are planning to ship most of our orders Prepaid, Parcel Post since by so doing we can utilize the Rural Mail Route which passes near our Packing house.

Unless you prefer Express, charges collect, please include with your order the following postage:

	per plant
Dixie Supreme Grade.....	5c
Dixie No. 1 Grade.....	4c
Dixie No. 1½ Grade.....	3c
Dixie No. 2 Grade.....	2c

(Please note Grade Illustration on reverse side). Our Dixie Supreme Grade is our largest sized plant—stronger than necessary to qualify as No. 1 Grade.

NEW THORNLESS ROSE

(Plant Patent No. 545)

A new red Rose well adapted to the Southern garden. It produces large, 50 petaled blooms of glowing crimson on long, strong, absolutely thornless stems. It is an exceptionally good cut flower rose developed from the well known garden rose, E. G. Hill. Perhaps you have heard of or grown thornless roses, but all so described really did have a few thorns. You can win an extra plant of this New Thornless Rose if you find even one thorn on the stems of the plants we send you.

Price, each80c

Price, per dozen\$8.00

NATIONALLY ADVERTISED PATENTED ROSES

These patented, nationally advertised roses are grown and distributed by us by special license from the patent owner.

Grade

The American Association of Nurserymen has established the following rules for grading the strong growing (like Radiance) Hybrid Tea Roses: No. 1 Grade—3 or more strong canes 18 inches up; No. 1½ Grade—2 or more strong canes 14 inches up; No. 2 Grade—2 or more canes 12 inches up; No. 3 or cull grade—1 or more canes 8 inches up. The No. 3 or cull grade may contain larger plants of poor shape or insufficient roots for the upper grades.
